**EARTH CURRENTS OF PORFIRIY BAKHMETYEY  
(100 YEARS AFTER DEATH OF THE SCIENTIST)**

**Yu.I. Blokh**

Porfiry Ivanovich Bakhmetyev, a physicist and biologist (1860-1913), had a hard life and scored major scientific success. Experimental investigation in telluric currents was one of his achievements. These results may become useful for modern volcanologists.

Keywords: science history, telluric currents.
